

MOT and Flex MOT Degree Program Comparison

The University of St. Augustine for Health Sciences (USAHS) offers two types of Master of Occupational Therapy (MOT) degree programs. The Full-Time MOT is a campus-based program blended with online learning components, while the Flex MOT has been designed to meet the needs of students with work or family responsibilities.

Both MOT degree programs combine state-of-the-art facilities and online learning tools with innovative technologies to deliver a student-centered curriculum that will enable you to meet your potential as a future OT professional.
