Post-professional  
students and alumni

Our Next Trip is Scheduled for  
Spring 2020. Sign up today!

# Travel

Explore health sciences in the oldest republic of the world.

## Why Italy?

- The World Health Organization (WHO) ranks the Italian healthcare system second only to France, out of 191 countries studied worldwide
- Locations where large numbers of foreign visitors gather provides a microcosm for the study of an international health delivery system
- To understand the health delivery system of a country it's important to examine the history, culture, and behavior of its citizens
- Research indicates that Italy is the most desired travel location in Europe

# Study

Travel to Italy with USAHS to study global health and be a part of our first international educational experience.

Post-professional students and alumni from a variety of disciplines will survey ancient health delivery methods, comparative health systems, traditional health models, and health economics.

Through immersion in the local culture, participants will develop an in-depth understanding of the area history, environmental landscape, economics, government, and organizations. This expedition is an opportunity to examine the impact of health behaviors on health outcomes, and ultimately, the local healthcare system.

The trip will present an opportunity to engage in interprofessional education and collaborate across disciplines. Explore the area alongside students from various healthcare professions to broaden your skills and benefit from a variety of perspectives.

# Reserve Your Spot

If interested, please fill out a registration form and if you have any questions, contact Dr. Stefanie Podlog at [spodlog@usa.edu](mailto:spodlog@usa.edu) or Dr. Don Dodson from CustomEurope at [CustomEurope@usa.edu](mailto:CustomEurope@usa.edu).

Credit-seeking students will receive credit towards a designated course upon successful completion of the trip and required course work (IPE7421B or Special Projects).

## All-inclusive price: \$3,600 plus airfare

- This trip is eligible for financial aid – \*Please note: Federal Aid (Title IV) funds cannot be used for these immersions.
- A non-refundable \$500 deposit is required from all participants as part of the registration.
- The price for our Italy immersion is: \$3,600 if not using financial aid and arranging your own flight.
- Or \$4,600 if the students are using financial aid with \$1000 to be reserved so they can make their own flight arrangements.
