

UNIVERSITY of
ST. AUGUSTINE *for*
HEALTH SCIENCES

PHYSICAL THERAPY RESIDENCY PROGRAM

CLINICAL ORTHOPAEDIC RESIDENCY

Residents will become highly skilled practitioners with an increased ability to successfully treat patients with musculoskeletal conditions

Designed to help new clinicians advance their skills and knowledge base for the ABPTS OCS exam

Residents will learn evidence-based orthopaedic concepts, techniques, and how to apply those skills in the clinic

79% graduation rate*
100% OCS Board Pass rate**

* 14-year graduation rate (2010 – 2024) per USAHS internal data collection

** Based on USAHS graduates of the program who have taken the exam between 2010 – 2024

WHY USAHS?

Flexibility

- Pursue your Residency at any qualified site in the USA. No need to move or relocate!
- Most courses are available and completed online. Residents must attend 3 skills labs at our St. Augustine campus.
- Multiple starts during the year: January, May or September. Adjustable clinical hours – start your clinical hours when it's convenient for you.

Comprehensive

Participants can also earn academic credit toward an EdD degree from USAHS.

Differentiated

Residents participate in unique mentoring sessions and didactic work with distinguished faculty and experts.
